

ONIX for Books

Code Lists Issue 12 Additions and Changes

29 October 2010

Note: **text in blue** indicates an existing code, eg where the status or description has been changed.
Text in red indicates a new code introduced in this Issue.

List 5 – Product identifier type code

05	ISMN-10	International Standard Music Number (M plus nine digits). Pre-2008 - now DEPRECATED in ONIX for Books
25	ISMN-13	International Standard Music Number (13-digit number starting 9790, from 2008)

List 10 – Epublication type code

Value	Description	Notes
040	Book 'app' for iOS	Epublication packaged as an application for iOS (eg Apple iPhone, iPad etc) containing both executable code and content. Content can be described with <ProductContentType>
041	Android 'app'	Epublication packaged as an application for Android (eg Android phone or tablet) containing both executable code and content. Content can be described with <ProductContentType>
042	Other 'app'	Epublication packaged as an application. Technical requirements such as target operating system and/or device should be provided in <EpubTypeNote>. Content can be described with <ProductContentType>

List 18 – Person / organization name type

04	'Real' name	May be used to identify a real name, where the primary name is a pseudonym
----	-------------	----------------------------------------------------------------------------

List 21 – Edition type code

ENH	Enhanced	Use for e-publications that have been enhanced with additional text, speech, other audio, video, interactive or other content.
-----	----------	--------------------------------------------------------------------------------------------------------------------------------

List 26 – Main subject scheme identifier code

78	Japanese book trade C-Code	
79	Japanese book trade Genre Code	

List 27 – Subject scheme identifier code

78	Japanese book trade C-Code	
79	Japanese book trade Genre Code	

List 29 – Audience code type

19	Lexile measure	Lexile measure (the measure in <AudienceCodeValue> may optionally be prefixed by the Lexile code). Examples might be '880L', 'AD0L' or 'HL600L'
----	----------------	-------------------------------------------------------------------------------------------------------------------------------------------------

List 32 – Complexity scheme identifier

01	Lexile code	DEPRECATED in ONIX 3 - use <Audience> instead
02	Lexile number	DEPRECATED in ONIX 3 - use <Audience> instead

List 34 – Text format code

14	EPUB	The Open Publication Structure / OPS Container Format standard of the International Digital Publishing Forum (IDPF) [File extension .epub]
----	------	--------------------------------------------------------------------------------------------------------------------------------------------

List 44 – Name code type

19	Japanese Publisher identifier	Identifier administered by the Japanese ISBN Agency
----	-------------------------------	-----------------------------------------------------

List 45 – Publishing role code

13	Former publisher	When ownership of a product or title is transferred from one publisher to another (complement of code 09)
----	------------------	-----------------------------------------------------------------------------------------------------------

List 46 – Sales rights type

00	Sales rights unknown or unstated for any reason	May only be used with the <ROWSalesRightsType> element in ONIX 3
03	Not for sale in the specified countries or territories (reason unspecified)	
04	Not for sale in the specified countries (but publisher holds exclusive rights in those countries or territories)	
05	Not for sale in the specified countries (publisher holds non-exclusive rights in those countries or territories)	
06	Not for sale in the specified countries (because publisher does not hold rights in those countries or territories)	
07	For sale with exclusive rights in the specified countries or territories (sales restriction applies)	Only for use with ONIX 3
08	For sale with non-exclusive rights in the specified countries or territories (sales restriction applies)	Only for use with ONIX 3

List 49 – Region code

ROW	Rest of world	World except as otherwise specified. NOT USED in ONIX 3
-----	---------------	---------------------------------------------------------

List 68 – Market publishing status

15	Recalled for reasons of consumer safety	
----	-----------------------------------------	--

List 78 – Product form detail

B119	46 size	Japanese format: 188x127mm
B120	46-Henkei size	Japanese format
B121	A4	297x210mm
B122	A4-Henkei size	Japanese format
B123	A5-Henkei size	Japanese format
B124	B5-Henkei size	Japanese format
B125	B6-Henkei size	Japanese format
B126	AB size	Japanese format: 257x210mm
B127	B7 size	Japanese format: 128x81mm
B128	Kiku size	Japanese format: 218x152mm
B129	Kiku-Henkei size	Japanese format
B222	'Carousel' book	(aka 'Star' book). Tax treatment of products may differ from that of products with similar codes such as Book as toy or Pop-up book)
B701	UK Uncontracted Braille	Single letters only. Was formerly identified as UK Braille Grade 1
B702	UK Contracted Braille	With some letter combinations. Was formerly identified as UK Braille Grade 2
B703	US Braille	DEPRECATED- use B704/B705 as appropriate instead
B704	US Uncontracted Braille	
B705	US Contracted Braille	
B706	Unified English Braille	

List 81 – Product content type

12	Maps and/or other cartographic content	
13	Other speech content	eg an interview, not a 'reading' or 'performance'

List 100 – Discount code type

06	BIC commission group code	UK publisher's or distributor's commission group code in format specified by BIC to ensure uniqueness. Format is identical to BIC discount group code, but indicates a commission rather than a discount (applies to goods supplied on agency terms)
----	---------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

List 144 – Epublication technical protection

04	Apple DRM	'FairPlay' DRM protection applied via Apple proprietary online store
05	OMA DRM	OMA v2 DRM protection applied, as used to protect some mobile phone content

List 145 – Usage type

06	Lend	Lendable to other device owner or account holder (primary copy becomes unusable while copy is 'on loan')
----	------	----------------------------------------------------------------------------------------------------------

List 158 – Resource content type

11	Contributor interview	
12	Contributor presentation	Contributor presentation and/or commentary
13	Contributor reading	
14	Contributor event schedule	Link to a schedule in iCalendar format

List 160 – Resource feature type

01	Required credit	Credit that <i>must</i> be displayed when a resource is used (eg 'Photo Jerry Bauer' or '© Magnum Photo'). Credit text should be carried in <FeatureNote>
02	Caption	explanatory caption that may accompany a resource (eg use to identify an author in a photograph). Caption text should be carried in <FeatureNote>
03	Copyright holder	copyright holder of resource (indicative only, as the resource can be used without consultation). Copyright text should be carried in <FeatureNote>
04	Length in minutes	approx length in minutes of an audio or video resource. <FeatureValue> should contain the length of time as an integer number of minutes

List 161 – Resource form

01	Linkable resource	A resource that may be accessed by a hyperlink. The current host (eg the ONIX sender, who may be the publisher) will provide ongoing hosting services for the resource for the active life of the product (or at least until the Until Date specified in <ContentDate>). The ONIX recipient may embed the URL in a consumer facing-website (eg as the src attribute in an link), and need not host an independent copy of the resource
02	Downloadable file	A file that may be downloaded on demand for third-party use. The ONIX sender will host a copy of the resource until the specified Until Date, but only for the ONIX recipient's direct use. The ONIX recipient should download a copy of the resource, and must host an independent copy of the resource if it is used on a consumer-facing website. Special attention should be paid to the 'Last Updated' <ContentDate> to ensure the independent copy of the resource is kept up to date
03	Embeddable application	An application which is supplied in a form which can be embedded into a third-party webpage. As type 02, except the resource contains active content such as JavaScript, Flash, etc

List 162 – Resource version feature type

06	MD5 hash value	MD5 hash value of the resource file. <ResourceVersionFeatureValue> should contain the hash value (as 32 hexadecimal digits). Can be used as a cryptographic check on the integrity of a resource after it has been retrieved
----	----------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

List 163 – Publishing date role

02	Embargo date	If there is an embargo on retail sales in this market before a certain date, the date from which the embargo is lifted and retail sales are permitted
----	--------------	-------------------------------------------------------------------------------------------------------------------------------------------------------

List 172 – Currency zone

EUR	Eurozone	Countries that at the time being have the Euro as their national currency. Deprecated in ONIX 3
-----	----------	-------------------------------------------------------------------------------------------------

List 175 – Product form detail

B119	46 size	Japanese format: 188x127mm
B120	46-Henkei size	Japanese format
B121	A4	297x210mm
B122	A4-Henkei size	Japanese format
B123	A5-Henkei size	Japanese format
B124	B5-Henkei size	Japanese format
B125	B6-Henkei size	Japanese format
B126	AB size	Japanese format: 257x210mm
B127	B7 size	Japanese format: 128x81mm
B128	Kiku size	Japanese format: 218x152mm
B129	Kiku-Henkei size	Japanese format
B222	'Carousel' Book	(aka 'Star' book). Tax treatment of products may differ from that of products with similar codes such as Book as toy or Pop-up book)
B701	UK Uncontracted Braille	Single letters only. Was formerly identified as UK Braille Grade 1
B702	UK Contracted Braille	With some letter combinations. Was formerly identified as UK Braille Grade 2
B703	US Braille	DEPRECATED- use B704/B705 as appropriate instead
B704	US Uncontracted Braille	
B705	US Contracted Braille	
B706	Unified English Braille	
E134	Book 'app' for iOS	Epublication packaged as application for iOS (eg Apple iPhone, iPad etc), containing both executable code and content. Use <ProductContentType> to describe content, and <ProductFormFeatureType> to list detailed technical requirements
E135	Book 'app' for Android	Epublication packaged as application for Android (eg Android phone or tablet), containing both executable code and content. Use <ProductContentType> to describe content, and <ProductFormFeatureType> to list detailed technical requirements
E136	Book 'app' for other operating system	Epublication packaged as application, containing both executable code and content. Use where other 'app' codes are not applicable. Technical requirements such as target operating system and/or device should be provided eg in <ProductFormFeatureType>. Content type (text or text plus various 'enhancements') may be described with <ProductContentType>

List 176 – Product form feature value: operating system

14	Windows Phone 7	A proprietary operating system supplied by Microsoft for mobile devices, successor to Windows Mobile
----	-----------------	------------------------------------------------------------------------------------------------------

List 179 – Price code type

01	Proprietary	A publisher or retailer's proprietary code list which identifies particular codes with particular price points, price tiers or bands.
----	-------------	---------------------------------------------------------------------------------------------------------------------------------------
