

## ONIX for Books: Changes in Code Lists Issue 6

July 2006

### List 7 (Product form code)

New codes BN and PQ, and the clarification of PM, requested by the Spanish ONIX group. "Fascículos", sold on newsstands, are an important feature of Spanish publishing. New code BO requested by the German ONIX group, and included in List 7 since the folded format is considered to be the primary characteristic of this type of product. New codes DJ to DM requested by Bowker.

BN	Part-work (fascículo)	A part-work issued with its own ISBN and intended to be collected and bound into a complete book
BO	Leporello (folded)	A concertina-folded book, usually a picture book
DJ	Secure Digital (SD) Memory Card	
DK	Compact Flash Memory Card	
DL	Memory Stick Memory Card	
DM	USB Flash Drive	
PM	Wallet or folder	Wallet or folder (usually containing loose sheets etc): it is preferable to code the contents and treat 'wallet' as packaging (List 80), but if this is not possible the product as a whole may be coded as a 'wallet'. ( <i>Clarification of existing code value</i> )
PQ	Plate (lámina)	A book-sized (as opposed to poster-sized) sheet, usually in colour or high quality print

### List 10 (Epublication format)

New code 027 requested by Bowker.

027	Sony BBeB	An epublication delivered in a proprietary format, capable of being read on a Sony Reader handheld device
-----	-----------	---

### List 12 (Trade category)

Usage of existing code 04 extended at the request of the Spanish and French ONIX groups.

04	'Pocket' paperback	In countries where recognised as a distinct trade category (French 'livre de poche', German 'Taschenbuch', Spanish 'libro de bolsillo')
----	--------------------	---

### List 13 (Series identifier type code)

New code 06 added for consistency with other identifier lists.

06	DOI	
----	-----	--

### List 17 (Contributor role code)

New code B24 requested by the Spanish ONIX group: this role is specifically recognised by the Spanish ISBN Agency and by a number of publishers. Clarification of B20 requested by the UK.

B20	Consultant editor	Use also for 'advisory editor' ( <i>Clarification of existing code value</i> )
B24	'Literary editor'	An editor who is responsible for establishing the text used in an edition of a historic literary work (in Spain, 'editor literario')

### List 21 (Edition type code)

Corrections to documentation on BRL, LTE and MCP suggested by the UK, who also requested a new code specifically for "ultra large print", with a clarification of the size range for LTE.

BRL	Braille	Braille edition ( <i>Incorrect annotation deleted from existing code</i> )
LTE	Large type / large print	Large print edition, print sizes 14 to 19 pt - see also ULP ( <i>Clarification of, and incorrect annotation deleted from, existing entry</i> )
MCP	Microprint	A printed edition in a type size too small to be read without a magnifying glass ( <i>Incorrect annotation deleted from existing entry</i> )
ULP	Ultra large print	For print sizes 20pt and above, and with typefaces designed for the visually impaired - see also LTE

### List 27 (Subject scheme identifier code)

Code 39, added in Issue 5, has been redefined, and codes 43-46 have been added, at the request of the Norwegian ONIX group. Code 17 requested by the UK for a new qualifier added to the BIC subject category scheme.

17	BIC reading level & special interest qualifier	Code
39	Læreplaner	Norwegian school curriculum version (4703)
43	Skolefag	Norwegian primary and secondary school subject categories (4705)
44	Videregående	Norwegian list of categories used in higher secondary education and vocational training (4706)
45	Undervisningsmaterieill	Norwegian list of categories for books and other material used in education (4707)
46	Norsk DDK	Norwegian version of Dewey Decimal Classification

### List 29 (Audience code type)

New code 01 proposed by the UK, with the following background: "In the general spirit of moving things from the <Product> level into various composites, Code List 29 should contain a code that allows the values from Code List 28 to be carried within the <Audience> composite instead of outside the composite."

01	ONIX audience codes	Code List 28 for use within the <Audience> composite
----	---------------------	--

### List 30 (Audience range qualifier)

New code 20 requested by the Norwegian ONIX group. New code 16 requested by the German ONIX group. New code 12 requested by the UK.

12	UK school grade	Values are defined by BIC for England & Wales, Scotland and N Ireland
16	Interest age, months	For use up to 30 months only: values in <AudienceRangeValue> must be integers
20	Skoletrinn	Norwegian educational grades (4704)

### List 38 (Image/audio/video file type code)

New code 06 suggested in correspondence from the Australian ONIX group, to differentiate a high quality image from a regular (but not thumbnail) image.

04	Front cover image	Quality unspecified: if sending both a standard quality and a high quality image, use 04 for standard quality and 06 for high quality ( <i>Clarification of existing code value</i> )
06	Front cover high quality image	

### List 44 (Name code type)

New codes 06 and 07 have been defined for ONIX Serials, and are now also included for ONIX Books.

06	EAN-UCC GLN	Global location number (formerly EAN location number)
07	SAN	Book trade Standard Address Number - US, UK etc

### List 50 (Measure unit code)

New code requested by the German ONIX group.

cm	Centimeters	Millimeters are the preferred metric unit of length
----	-------------	---

### List 51 (Relation code)

New code 11 requested by the Norwegian ONIX group. Explanatory text for all other values has been revised in the light of a user query on the ONIX listserv.

01	Includes	X includes Y (where the product described in the ONIX record is X and the related product is Y)
02	Is part of	X is part of Y – use for 'also available as part of'
03	Replaces	X replaces Y
05	Replaced by	X is replaced by Y
06	Alternative format	X is available in an alternative format as Y – indicates an alternative format of the same content which is or may be available.
07	Has ancillary product	X has an ancillary or supplementary product Y
08	Is ancillary to	X is ancillary or supplementary to Y
09	Is remaindered as	X is remaindered as Y, when a remainder merchant assigns its own identifier to the product
10	Is remainder of	X was originally sold as Y, indicating the publisher's original identifier for a title which is offered as a remainder under a different identifier
11	Is other-language version of	X is an other-language version of Y
12	Publisher's suggested alternative	X has a publisher's suggested alternative Y, which does not, however, carry the same content (cf 05 and 06)
13	Epublication based on (print product)	X is an epublication based on printed product Y
14	Epublication is distributed as	X is an epublication 'rendered' as Y – use when the ONIX record describes a package of electronic content which is available in multiple 'renderings'
15	Epublication is a rendering of	X is a 'rendering' of an epublication Y – use when the ONIX record describes a specific rendering of an epublication content package, to identify the package
16	POD replacement for	X is a POD replacement for Y – Y is an out-of-print product replaced by a print-on-demand version under a new ISBN
17	Replaced by POD	X is replaced by POD Y – Y is a print-on-demand replacement, under a new ISBN, for an out-of-print product X

### List 53 (Returns conditions code type)

This change results from correspondence with BIC.

03	UK book trade returns conditions code	<b>NOT CURRENTLY USED</b> – BIC has decided that it will not maintain a code list for this purpose, since returns conditions are usually at least partly based on the trading relationship ( <i>Clarification of existing code value</i> )
----	---------------------------------------	--

### List 70 (Stock quantity code type)

New list, required as a consequence of the introduction of the <StockQuantityCoded> composite in Release 2.1 revision 03.

01	Proprietary	
02	APA stock quantity code	Code scheme defined by the Australian Publishers Association

### List 71 (Sales restriction type code)

New codes 04 to 06 were requested by the UK ONIX group, with the following background:

“Code List 71 currently lacks sufficient detail in two respects to meet the needs of Nielsen BookScan and possibly other users. The requirements are:

- a) to make a distinction between the two circumstances combined under code 01;
- b) to identify items for sale to libraries only.”

01	Retailer exclusive / own brand	For sale only through designated retailer. Retailer must be named in <SalesOutletName>. Use only when it is not possible to assign the more specific code 04 or 05. ( <i>Clarification of existing code value</i> )
04	Retailer exclusive	For sale only through designated retailer, though not under retailer's own brand/imprint. Retailer must be named in <SalesOutletName>
05	Retailer own brand	For sale only through designated retailer under retailer's own brand/imprint. Retailer must be named in <SalesOutletName>
06	Library edition	For sale to libraries only; not for sale through retail trade.

### List 74 (Language code)

New code 'qar' was requested by the Spanish ONIX group. “Aranés” is a variant of Catalan spoken in the Valle de Arán, and is recognised as a language by the Spanish ISBN Agency, but is not included in ISO 639-2/B.

qar	Aranés	ONIX local code
-----	--------	-----------------
