

Thema national extensions April 2019

This is the list of additions and updates to the *Thema v1.3* national extensions for April 2019, that was approved by the *Thema* International Steering Committee members at the London Book Fair. The additions consist of a range of additional national extension qualifiers for the Latin American countries, Finland, Norway and Poland, plus a category for India that was inadvertently omitted from version 1.3. They are for places, time periods, educational and interest qualifiers. As with all additions to national extensions, if you do not want to use them, you can go back to the root core code. As an example, if you receive the code for Vantaa - 1DNF-FI-CBC and you do not support this code, you can take it back to the root core code 1DNF – Finland.

This version is being numbered as *Thema v1.3.2* for clarity.

Within the tables, **additions are in red**, any **changes and clarifications in teal** and unchanged text is black.

Chile – place qualifiers

Code	English	Spanish
1KLSH	Chile	Chile
1KLSH-CL-A	Norte Grande	Norte Grande
1KLSH-CL-B	Norte Chico	Norte Chico
