

Thema national extensions October 2019 – for additions to Thema v1.3

This is the list of new *Thema* national extensions for October 2019 that were approved by the *Thema* International Steering Committee members at their meeting at the Frankfurt Book fair.

The proposals consist of a range of new national extension qualifiers for India, Japan, Norway and one for the Netherlands. These updates are linked to market requirements. Japan is launching *Thema* in its market in this last part of 2019. The one code proposed by the Netherlands is linked to the seasonal nature of books about the subject. For India, it is the huge and growing importance of the educational exams sector, especially admissions exams to different careers or educational institution and the need to add these codes to meet the requirements of this market. Norway has to modify two codes and add one, to meet recent changes in terminology for its education system. There will be a new release of *Thema*, v 1.4 in April 2020, so other new national qualifiers will be added then.

Within the tables, **additions are in red**, any **changes and clarifications in teal** and unchanged text is black.

Japanese national extensions – Time period qualifiers

Code	English	Japanese
3BD	Stone Age	
3BD-JP-J	c 16500 to c 1 000 BCE (Japanese Jomon period)	縄文時代(西曆前約 16500 年前— 西曆前 11 世紀)
